Neukölln: different, authentic and off the beaten track

Hip, diverse, sexy, multicultural – the list of adjectives used to describe Neukölln is as long as Sonnenallee, which runs through the district. And it's true: Neukölln is everything – and much more. If this district were a TV station, its best match would be *ARTE*: Different, authentic, off the beaten track and packed with culture, open-mindedness, curiosity and an eagerness to try out new things.

Those exploring the district will quickly discover that there is not one Neukölln. Neukölln has always been a melting pot. Change and new beginnings are tangible everywhere. This special flair attracts people from all over the world: artists and creative minds, music aficionados and in-crowds, fashion-conscious individuals and connoisseurs. Everyone can find something suited to their taste among the cultural institutions and events, interesting architecture and trendy pubs. It is as multi-faceted as the languages that can be heard in Neukölln: people from more than 160 countries have made this district their home.

By the way: The name *Neukölln* refers both to the district and its northern part. Together with four other localities – *Britz*, *Buckow*, *Gropiusstadt* and *Rudow* – it makes up the administrative district of Neukölln. While size-wise it is the third-smallest district in Berlin, its 300,000 inhabitants make it one of the most populous ones.

Join us for a "Cultour" through Neukölln – from north to south, through the district. Discover urban life, idyllic village centres and impressive buildings, green urban oases and colourful art, charming markets and exciting places for families. In short: Experience the most beautiful sights of this diverse district.

Like New York, only typically Neukölln

Admittedly: Karl-Marx-Straße might not be as long as Broadway in New York – but it is at least as vibrant. The “little brother” offers a respectable variety of different locations – starting with the *Neuköllner Oper* and *Heimathafen Neukölln* to the *Passage Kino*, which still emanates the flair from the early days of cinema.

Let the show begin!

Neuköllner Oper

The *Neuköllner Oper* is Berlin's fourth opera house. It stages eight to ten premieres per year, featuring a wide and exciting array of genres: Opera, operetta, musicals and other performances. Its auditorium offers seats for up to 220 spectators, while the smaller studio stage caters to an audience of up to 60 people.

Heimathafen Neukölln

A haven for everyone: it offers entertainment in the best sense of the word, covering a large variety of disciplines: Concerts, theatre plays, revues and of course the original *Berliner Schnauze* slang. The programme is rounded-off by productions and guest performances, for example from the local independent creative scene.

Whether an international weekly market, hip neighbourhood market or cosy village market: Those fancying extensive “market research” will get their money’s worth in Neukölln. There is almost nothing that can’t be found there. A trip to the Middle East perhaps? Off to *Maybachufer* then! Good regional quality? *Die Dicke Linda* is looking forward to your visit. Barista-quality coffee? Then *Hermannplatz* is a hot tip. Either way, bring along enough shopping bags – and some stamina. There can be some queuing in front of popular stalls. But it’s worth the wait.

Weekly Market at *Maybachufer*

The scents and flavours of the whole wide world can be found here alongside the canal. International specialties, fresh fruit and vegetables from far and wide are mixed with regional organic products. The highlight: one of the largest Middle Eastern bazaars in Berlin. And there are plenty of street food vendors for when you work up an appetite.

Schloss & Gutshof Britz. Neukölln in all its splendour

Schloss Britz

Schloss Britz: Back to the Gründerzeit

Neukölln can do laid-back and urban chic. It can also do elegance and style. Case in point: *Schloss Britz*, part of a spacious estate. This 300-year-old Prussian manor house is situated in an almost two-hectare park. It was erected on the site of the *Rittergut*, a historic feudal estate in the former village of Britz. Absolutely worth seeing: The carefully refurbished rooms with their *Gründerzeit* flair from the Wilhelminian era. Art enthusiasts can look forward to exhibitions showcasing international artwork and classical concerts, and gourmets can savour regional culinary specialties. *Schloss Britz* has been a listed historical site since 1971.

Gutshof Britz

Gutshof Britz: A Cowshed full of Culture

Other buildings on this estate are also in use again: The old cowshed hosts cultural events. The historic horse stables house *Museum Neukölln*. The *Musikschule Paul Hindemith Neukölln* rehearses in the former estate manager's house. In addition, there is an open-air stage and – especially cool for kids – the opportunity to watch cows, bunnies and horses at USE, a social initiative for animal welfare.

Take your Taste Buds on a Journey around the World

Café Botanico

As the saying goes, the way to someone's heart is through their stomach. Embarking on a culinary journey through Neukölln might add a few more kilos. It's also highly likely that you'll fall in love, for instance with the award-winning blood sausages, the hand-made cheese specialties of *Peppi Käse* or the little delicious sweets of *Konditorei Damaskus*, with its scent of nuts and rose water. Bon appetit!

Berliner Berg – Berggarten

Whether it's a classic pilsner or a spicy lager, a fruity pale ale or an IPA, a tangy, traditional Berliner Weisse or seasonally limited specials, you can savour them all in the cosy Berggarten of the Berliner Berg brewery. It is "Tradition. Rebrewed." The brewery tours with tastings to follow are a real treat.

Idyllic village setting for the city dweller

Böhmisches Dorf

Rixdorfer Schmiede
Richardplatz 28, 12055 Berlin
U7 Karl-Marx-Straße

Rixdorfer Schmiede: Forging the hot iron

Right on the central square in Rixdorf, the former village green now called Richardplatz, is the old *Rixdorfer Schmiede* smithy. With first references dating back to 1624, it is the oldest smithy still in use in Berlin. Goldsmith's jewellery, knives and a wide variety of artisanal objects are manufactured here. At various events and during the Christmas Market, visitors have the opportunity to watch metals being forged. For those wanting to wield the hammer themselves, the smithy also offers courses. It is even possible to forge personalized wedding rings.

Rixdorfer Schmiede

Böhmisches Dorf: Pure village charm

Ready to do some time traveling? Then visit the *Böhmisches Dorf*. Bohemian refugees founded this small community in 1737. Thanks to old streetlights, cobblestone pavements and picturesque houses with their lush front yards, it feels like a short trip back in time to the 18th century. You can discover sites such as the *Comenius-Garten*, the *Museum im Böhmisches Dorf* and the well-preserved *Bethlehemskirche* church from the 15th century on a walk through the former village.

Art everywhere

Neukölln's art scene is vibrant, diverse and always a bit different. Open studios and art spaces offer creative people from around the world the perfect setting to express themselves artistically. Numerous small galleries exhibit the works of international and local artists. The *KINDL-Zentrum* presents contemporary art in all its shapes and colours – alongside the art of brewing.

Museum Neukölln

Museum Neukölln is the second oldest museum for local history after the *Märkisches Museum* – and one of the most distinguished ones. Designed as an interactive exhibition, it allows visitors to immerse themselves in the eventful history and urban culture of Neukölln.

KINDL – Centre for Contemporary Art

Art is brewing

It's always possible to argue about art – especially contemporary art. And particularly when this art is spread throughout the *KINDL – Zentrum für zeitgenössische Kunst* on three floors with an exhibition space of more than 1,600 square metres. Since 2016, this very spacious compound in the former Kindl brewery has been offering the perfect setting for international contemporary art. Several times a year numerous large exhibitions are presented in this striking industrial monument, built in the 1920s style of Brick Expressionism.

The exhibitions are supplemented by artist talks, lectures and concerts. The 20m-high boiler house is absolutely stunning. This exhibition space features artworks specifically designed for this setting. Another eye-catching feature: the former brew house with its six gigantic copper vats. At one point in time they were the largest brewing vats in Europe. Today, one can savour coffee and cake here at *Café Babette*.

More than just a Facade

The most beautiful mosque in Berlin, a horse-shoe shaped residential area and two windmills which appear to have been teleported to Neukölln straight from the Netherlands:

Neukölln's architecture can best be described as a mixture of styles. In some places resembling a sleepy village, in others almost Middle Eastern.

Come along with us on an architectural world trip – right here in Neukölln.

Hufeisensiedlung.

A curvy World Heritage Site

Hufeisensiedlung

Socially-minded from the start

Those able to fly have a clear advantage. They can immediately see why this housing estate was named the *Hufeisensiedlung*: From above, the curved shape of the residential complex is clearly reminiscent of a horseshoe. As one of the first social housing projects in the world, it is an important example of New Objectivity architecture. The housing complex was built between 1925 and 1930 at the site of the former *Rittergut Britz* feudal estate. It was planned by Bruno Taut and Martin Wagner. They wanted to create affordable living spaces for workers – not cheap and shabby tenements, but well-equipped, pleasant and bright apartments instead.

Hufeisensiedlung / residential complex

Urban Development at its Most Beautiful

Today, the entire ensemble comprises around 1,300 flats and 679 terraced houses. In addition, there are numerous gardens and green spaces. The Hufeisensiedlung has been a UNESCO World Heritage Site since the year 2008 – and justly so. Its functional construction makes it a pioneer of modern architecture. At the same time, the houses vary in terms of the detailing, such as the use of differently coloured façades or front doors; small protrusions or recesses. Here dwells a perfect marriage of functionality and individuality.

Trail next to the train tracks

After riding through a spacious area of allotment gardens you'll finally arrive at some train tracks. These belong to the former *Neukölln-Mittenwald* train line. The tour continues alongside the tracks until *Gropiusstadt*.

68

Following the Berlin Wall Trail

Numbering close to 19,000 apartments, *Gropiusstadt* is one of the largest post-war housing estate developments in West Berlin. At this point the tour continues on the Berlin Wall Trail along the border to Brandenburg.

69

Dörferblick near Großziethen

From here on it's all uphill. At its southernmost corner, the trail leads up to the top of one of the highest hills in Berlin, the *Dörferblick*.

71

Water buffalo meadow

After a little bit more effort it's time to observe some wildlife! Just a few kilometres further on, water buffalos graze in the *Landschaftspark Rudow-Altglienicke*.

71

Berlin Wall Memorial

A Berlin Wall memorial awaits just around the corner from the Rudower Höhe hill. It's a segment of the *Hinterlandsicherungsmauer* (hinterland security wall), dating back to the construction of the wall by the GDR.

72

Ost-Krone

Following the *Ost-Krone*, a six-kilometre-long paved inline skating track, the ride continues along the banks of the *Teltowkanal*. The track is wide enough to cycle along swiftly without any risky passing manoeuvres.

73

Teltowkanal

The *Teltowkanalweg* is one of the 20 major green hiking trails through the city. Cycling along the small canal leads back to Neukölln.

What more could you ask for?

Donau 115

Neukölln has a very unique sound. It's a fascinating mix of pop songs, jazz chords, singer-songwriter lyrics and classical elements, their tunes are always catchy and their rhythms frequently get you up and dancing. This "symphony of a metropolis" can be experienced live at many locations. Every evening bands, musicians and impersonators show off their range of vocal and instrumental talents on Neukölln's large and small stages.

Prachtwerk

This palatial location can be found in a former factory building. By day a café and co-working space, at night it transforms into a bar with live music. Every Wednesday, Berliners can perform their own material on the open stage.

Fujiama Show

Diverse, creative and international: The Urban Music & Dance Show has its origins in the *Heimathafen Neukölln*. Its goal: To bring together young talent and professionals on stage, bridge cultures and generations and promote tolerance and diversity. Since 2015 the roadshow takes place at selected Neukölln weekly markets from spring to fall.

Donau 115

Donau 115 calls itself a “micro jazz bar”. But as regards the music, top quality is what’s on offer and you can count on first-class jazz being played here. The British newspaper *The Guardian* included this venue on its list of the top ten jazz clubs in Europe.

The Blossoming District

Neukölln is colourful. One colour stands out in particular: green. Trees, garden beds and flowers can be found almost everywhere. From north to south, numerous small gardens, large parks and spacious green areas are spread throughout Neukölln. They are ideally suited for city dwellers to chill out in. But of course, any visitor to Berlin should absolutely also visit these urban oases as well.

Flower Power

Much to the delight of West Berliners, the *Bundesgartenschau* (Federal Garden Exhibition – BUGA for short) came to the city in 1985. The locals were able to enjoy the newly laid out opulent sculpted gardens for 178 days between April and October. Subsequently it became *Britzer Garten* and over time turned into one of the most beautiful and popular recreational park areas in Berlin. With a total area of 90 hectares, it encompasses lakes, creeks and springs surrounded by extensive meadows, groves, shrub and flowerbeds as well as myriad thematic gardens designed with great care.

Rose Garden

Resting at the molehill

Throughout the year, workshops, festivals and concerts take place at *Britzer Garten*. Special events such as the tulip and dahlia shows are very popular. For those who would rather not discover the spacious gardens on foot, a small train guarantees a comfortable ride through the entire park. Afterwards, the *Restaurant Seeterrassen*, reminiscent of an oversized molehill, invites visitors to take a relaxing break.

Körnerpark

This neo-baroque park began its life as a gravel pit, which belonged to a Berliner, Frank Körner from 1887. After its closure, it was gradually transformed into a park. Plants grow in large flower pots on its balustrades. There is a waterfall and fountain, and concerts are held during the summer months.

Young Arts Neukölln

Today console and controllers stays behind – the outdoors are calling! There is a lot for kids to discover and try in Neukölln. The little ones can burn off all their energy on the many playgrounds. Older kids can take a dive at *Sommerbad Neukölln* or show their flips and slides at the *Skatepark* on Maybachufer. Super interesting for the whole family: a visit to the *KinderKünste Zentrum* with its exhibitions, workshops and hands-on activities.

Eisstadion Neukölln

From October to March two open-air ice rinks invite sports enthusiasts to prove if they have figured it out. Age doesn't matter. This is the perfect spot for those who love to speed across the ice to Top 40 hits or Latin sounds. So: time to slip into some skates!
